Gateshead's Andy Fenwick and Ryton's Lee Tindall had a trip to the Rockingham Stages in December, After Crashing out of the last Rally The Cheviot Stages the car had been rebuilt back to full health,

It Started on Friday night, in wet conditions and the team had the car set up for dry !, A first stage spin and resulting time loss dropped the team down to 12th place, but by the end of the night climbed back to 9th overall,

We had an early start to Saturday to enable the team to change suspension to a wet setting, this transforming the car into something that could pull us back further up the leaderboard.

We now started to set top 6 times for the final 6 stages, and moving us from 9th to 6th at the finish, and gaining us some vital data for 2008 in the wet.

Not a mark on the car this time, a quick wash and it was put away for the New Year, but rumour has it, Lee will be driving in January, a Co- Driver driving surly not.

Thanks to Tyrespot, Kumho Tyres, Micheldever, Powersurge, and NEC Security Forms
